ON THE MARGINS OF THE
56TH ANNUAL MEETING AT THE
WORLD ECONOMIC FORUM 2026

WELCOME TO NIGERIA HOUSE DAVOS 2026

Distinguished Guests, Global Leaders, Investors, Partners, and Friends of Nigeria,

It is with great pleasure that we welcome you to Nigeria House Davos 2026, the 56th Annual Meeting of the World Economic Forum in Davos, Switzerland. Nigeria House serves as a strategic platform to showcase Nigeria's economic transformation, investment opportunities, innovation ecosystem, and rich cultural heritage to the global community.

As one of Africa's four largest economies and one of the world's most dynamic markets, Nigeria is committed to fostering sustainable growth, strengthening international partnerships, and creating an enabling environment for business and investment. Through meaningful dialogue and collaboration, we seek to unlock new opportunities that will drive prosperity for our people and contribute to global economic development.

This year's gathering provides a unique opportunity to engage with policymakers, business leaders, innovators, and development partners who share a common vision of progress, resilience, and inclusive growth.

We invite you to explore the immense potential of Nigeria, connect with key stakeholders, and join us in shaping a future defined by innovation, opportunity, and shared prosperity.

Thank you for being part of this historic journey.

Welcome to Nigeria House Davos 2026.

Together, we are building bridges, creating opportunities, and advancing Nigeria's place on the global stage.

ABOUT NIGERIA HOUSE DAVOS

Nigeria House Davos is Nigeria's flagship engagement platform on the margins of the World Economic Forum Davos, Switzerland, created to advance Nigeria's economic, diplomatic, and strategic interests through high-level convenings and targeted engagement.

Operating as a hub for dialogue, deal-making, and cultural exchange, Nigeria House Davos brings together global stakeholders with direct interest in one of

Africa's largest economy.

PURPOSE & OBJECTIVES

Nigeria House Davos is designed to:

- Position Nigeria as a credible, investment-ready economy
- Facilitate direct engagement between Nigerian leaders and global stakeholders
- Strengthen Nigeria's visibility within

global economic and policy conversations

- Enable partnerships across public, private, and development sectors
- Showcase Nigeria's leadership, innovation, and cultural influence

AUDIENCE

Nigeria House Davos engages:

- Global investors and fund managers
- Policymakers and government leaders
- Multilateral and development institutions
- Business leaders and entrepreneurs
- Media and thought leaders

KEY ACTIVITIES

- High-level policy and economic dialogues
- Investment roundtables and private meetings
- Strategic networking sessions
- Cultural and diplomatic engagements (including Nigeria Night)
- Media and brand-building moments

VALUE PROPOSITION

Nigeria House Davos offers:

- Direct access to Nigerian leadership and decision-makers
- Curated conversations aligned with global economic priorities
- A trusted environment for partnership and deal exploration
- Strong nation branding through thought leadership and culture

OUTCOME

Nigeria House Davos transforms Nigeria's presence on the margins of the World Economic Forum from participation to influence by positioning the country as a credible global partner, facilitating strategic dialogue, attracting investment, strengthening international partnerships, and creating enduring economic opportunities that extend far beyond Davos.

Positioning Nigeria for Global Partnership, Investment & Influence

Located on the Davos Promenade in Switzerland, on the margins of the World Economic Forum, Nigeria House Davos serves as Nigeria's premier platform for high-level dialogue, strategic engagement, and international collaboration during one of the world's most influential global gatherings.

Designed as a convening space for policymakers, investors, business leaders, development partners, innovators, and thought leaders, Nigeria House Davos showcases Nigeria's economic potential while facilitating strategic conversations, investment opportunities, trade partnerships, and cross-sector collaboration.

Through curated dialogues, private meetings, investment showcases, cultural diplomacy, and targeted networking, Nigeria House Davos strengthens Nigeria's global profile and creates an environment where meaningful partnerships and commercially significant opportunities can be initiated.

THIS IS MORE THAN PRESENCE.

***It is positioning.
It is access.
It is opportunity.***

DAY
01

Solid Minerals, Mining Value Chains, Trade Infrastructure & Agriculture

Focuses on unlocking Nigeria's resource-backed economy by strengthening solid minerals and agricultural value chains, advancing beneficiation and local processing, and improving trade infrastructure. Addresses regulatory clarity, logistics efficiency, financing structures, and export readiness to transition from raw commodity dependence to globally competitive, value-added production systems.

DAY
02

Climate Investment, Energy & Environmental Sustainability

Examines Nigeria's role in the global climate economy through scalable energy transition pathways, climate finance mobilisation, and sustainable infrastructure development. Focuses on renewable energy deployment, carbon markets, green industrialisation, and policy frameworks required to attract institutional capital while aligning economic expansion with environmental resilience.

DAY
03

Digital Trade & Technology

Positions Nigeria as a continental hub for digital trade by strengthening enabling infrastructure, regulatory frameworks, and innovation ecosystems. Focuses on fintech, data economies, platform scaling, and cross-border digital trade, while advancing talent development and investment pipelines to drive competitiveness in the global digital economy.

DAY
04

Creative Economy & Cultural Export

Establishes the creative economy as a strategic export sector, driving structured monetisation of Nigeria's global cultural influence. Focuses on intellectual property frameworks, financing models, distribution channels, and infrastructure required to scale film, music, fashion, and digital content into bankable, export-driven industries.

DAY
05

Cross-sector Convergence & Closing Dialogue

Drives integrated alignment across priority sectors by consolidating investment opportunities, partnerships, and policy direction. Focuses on execution frameworks, deal structuring, and cross-sector collaboration to accelerate implementation and position Nigeria as a coordinated, investment-ready market.

Public-Private Partnership Framework

Nigeria House Davos operates through a close partnership between the public and private sectors. This model ensures the platform has official government backing, top-tier operational execution, and a lasting presence that continues long after the World Economic Forum ends.

Government Support

The platform is fully endorsed by the Federal Government of Nigeria. We work directly with key public institutions, including the Ministry of Industry, Trade and Investment, the Ministry of Finance, and the Ministry of Foreign Affairs. This direct connection provides solid state backing, clear policy alignment, and access to senior government decision-makers.

Private-Sector Execution

While the government provides the official foundation, a consortium of private-sector partners handles the day-to-day delivery and advisory work. These partners bring deep experience in infrastructure development, investment matching, communications, and large-scale program management.

Why This Model Works

By bringing these two worlds together, Nigeria House Davos combines:

1. *Official government credibility and policy backing.*
2. *Private-sector speed and operational efficiency.*
3. *International advisory and risk-management expertise.*
4. *Strong ties with development finance institutions.*
5. *Direct access to global business leaders and investors.*

Nigeria House Davos is not a one-time marketing event. It is a long-term platform built to support Nigeria's economic diplomacy and turn international conversations into real business partnerships.

Strategic Objectives 2026-2030

Nigeria House Davos is designed to shift Nigeria from just participating in global conversations to actively shaping them, creating clear paths for investment and long-term economic growth.

Over the next four years, the platform focuses on these key goals:

- **Boost Investment:** Build a strong pipeline of foreign direct investment across our most important business sectors.
- **Raise Visibility:** Ensure Nigeria has a strong, clear voice in global discussions about economics, business, and policy.
- **Build Partnerships:** Create a trusted space where public and private organizations can connect and close business deals.
- **Grow the Creative Economy:** Position Nigeria as Africa's leading hub for culture, film, music, and fashion.
- **Secure Climate Finance:** Attract international funding for green infrastructure, carbon markets, and sustainable energy.
- **Expand Local Manufacturing:** Attract investment into local processing and factories to grow our export industries.
- **Support the Tech Hub:** Build on Nigeria's strengths to cement its place as Africa's top digital and innovation economy.
- **Engage Large Investors:** Build stronger relationships with global pension funds, sovereign wealth funds, and development banks.
- **Drive Regional Trade:** Use the African Continental Free Trade Area (AfCFTA) to connect investors with markets across West Africa.
- **Act as the Gateway to Africa:** Show global businesses why Nigeria is the best starting point for expanding into the wider African market.

Priority Investment Pipelines

Nigeria offers practical, scalable business opportunities in fields driven by a growing population, rapid urbanization, and ongoing economic reforms.

Energy & Climate Infrastructure

Meeting local energy needs while building a cleaner grid opens up major projects for investors.

- **Opportunities:** Setting up solar and hybrid renewable energy projects, building rural mini-grids, and creating carbon credit frameworks.
- **How it's structured:** Public-private partnerships (PPPs), long-term concessions, blended finance, and dedicated infrastructure funds.

Agriculture & Agro-Processing

Moving from farming raw goods to processing them locally to capture more value.

- **Opportunities:** Setting up special agro-industrial zones, building modern cold storage and warehouses, and improving food logistics and export facilities.
- **How it's structured:** Business joint ventures, infrastructure partnerships, and risk-sharing models with development banks.

Technology & Digital Infrastructure

Serving Africa's most connected, tech-heavy consumer base.

- **Opportunities:** Building local data centers, developing AI infrastructure, expanding fintech platforms, and creating digital logistics tools.
- **How it's structured:** Direct corporate investment, venture capital, and build-operate-transfer (BOT) agreements.

Creative Economy & Cultural Exports

Helping Nigerian music, film, and fashion reach a global audience.

- **Opportunities:** Building modern production and sound studios, funding film ecosystems, and setting up international distribution and licensing deals.

- **How it's structured:** Private equity investment, international co-productions, and dedicated creative industry funds.

Solid Minerals & Industrial Value Chains

Developing untapped mineral wealth and building local processing plants.

- **Opportunities:** Building mineral processing facilities, setting up industrial manufacturing clusters, and creating export-focused economic zones.

- **How it's structured:** State-backed partnerships, strategic concessions, and industrial joint ventures.

Real Estate & Urban Development

Building the housing and commercial spaces needed for growing cities.

- **Opportunities:** Developing affordable housing communities, mixed-use commercial properties, urban transport systems, and hospitality or tourism venues.
- **How it's structured:** Joint ventures, Real Estate Investment Trusts (REITs), and infrastructure partnerships.

ECONOMIC REFORMS

These investment areas are backed by ongoing government reforms designed to stabilize foreign exchange, cut red tape, make it easier to do business, and open up better access to regional African markets.

Mobilising Public & Private Capital

At its core, Nigeria House Davos works as a matchmaking platform for capital. We bring together international investors looking for growth and Nigerian projects that need funding.

The platform sets up focused, practical discussions around:

- Funding large-scale infrastructure projects
- Mixing public and private funds to de-risk investments
- Setting up green, sustainable, and ESG-aligned projects
- Partnering with development banks and sovereign wealth funds

- Creating investment avenues for the Nigerian diaspora
- Building risk-mitigation structures to protect capital

By holding private meetings and targeted roundtables, Nigeria House creates a safe, clear environment where international financiers and local project owners can build trust and get deals done.

Nigeria by the Numbers

Nigeria combines massive scale, youth talent, and huge market demand into one of the world's most significant growth opportunities.

- Population: 230 Million+
- Median Age: 18.1 Years
- GDP: N441.5tn (2025) /\$300bn
- Consumer Market: Africa's Largest
- Urbanisation Rate: 54%+
- Diaspora Remittances: \$20.93bn (2024)
- Internet Users: 120 Million+
- Tech Leadership: The top destination for startup funding in Africa
- Culture Hub: The largest creative economy on the continent

BEYOND DAVOS

The annual meeting in Davos is just the start. The real work of Nigeria House Davos happens year-round through a steady process of follow-ups, tracking expressions of interest, and helping investors navigate local regulations until deals are closed.

Year-Round Engagement

We keep the momentum going through:

- **Investor Follow-up:** Helping investors move smoothly from initial meetings to actual project launches.
- **Targeted Capital Roadshows:** Sector-specific investment trips to major financial capitals in Europe, Asia, America, and the Middle East.
- **Bilateral Meetings:** Connecting project leaders with relevant government ministers throughout the year.

Our goal is to turn a single moment in Davos into a continuous, year-round effort that brings lasting economic partnerships to Nigeria.

WHY NIGERIA, WHY NOW

GLOBAL CAPITAL IS RECALIBRATING

As mature markets slow and valuations reset, investors are seeking:

◆ REAL DEMAND

◆ DEMOGRAPHIC
ADVANTAGE

◆ UNDERSERVED
GROWTH SECTORS

◆ MARKETS WHERE INNOVATION
SOLVES LIVED PROBLEMS

Nigeria sits at this intersection.

Market corrections have created better entry points.

Policy reforms are reshaping macro fundamentals.

Talent density continues to outperform infrastructure constraints.

NIGERIA

AT A GLANCE

Population: 230M+ (Giant of Africa)

GDP: N441.5tn (2025) / \$300bn

Urbanization: 54% and rising

Diaspora remittances: \$20.93bn (2024)

Consumer market: Africa's largest

Startups funded (2022): \$1B+

Nigeria combines scale, youth, and demand in one market.

FIRST EXPLORATION AND PETROLEUM DEVELOPMENT COMPANY (FIRST E&P)

www.first-epdc.com

About FIRST E&P

FIRST Exploration and Petroleum Development Company Limited (FIRST E&P) is a leading Nigerian independent energy company recognized for disciplined execution, operational excellence and responsible value creation.

Since operations commenced in 2012, FIRST E&P has built a reputation for delivering value to our stakeholders including Joint Venture partners, investors, host governments and local communities. Our ability to take projects from investment decision to production and commercialization within compressed timelines reflects strong governance, technical capability, and a culture of accountability.

Today, FIRST E&P operates a portfolio of offshore and shallow-water assets in Nigeria and continues to strengthen its position as a reliable operator and partner of choice, underpinned by robust systems, local capability development, and best-in-class operational practices.

Operational Excellence & Innovation

Operational excellence sits at the core of FIRST E&P's strategy. We deploy lean, fit-for-purpose infrastructure solutions, digitalized and automated operations, and locally executed engineering designs to optimize efficiency, safety, and cost discipline. Key highlights include:

- Zero LTI-free man-hours since inception in 2012
- Top quartile Unit Operating Costs (UOC) and Unit Development Costs (UDC)
- Design and deployment of innovative operational design, automated facilities and modular platform designs.
- Strong track record of project delivery within schedule and budget, including achieving first production milestones within two years of final investment decisions.
- Continuous improvement in asset integrity, reliability, and workforce safety, supported by experienced Nigerian technical leadership.

Sustainability & Responsible Operations

FIRST E&P is committed to embedding sustainability into operations and decision-making, aligning commercial performance with environmental stewardship and social impact.

- Achieved 96% flare-down across major operated fields, demonstrating practical emissions reduction at scale.
- Ongoing investments in gas utilization, energy efficiency, and low-carbon operational practices.
- Flagship Afforestation, Livelihood Enhancement & Carbon Sequestration (ALEC) Project, in partnership with the Nigerian Conservation Foundation, targeting the planting of 500,000 trees while supporting sustainable livelihoods in Niger Delta communities.

Communities & Inclusive Growth

Through targeted, measurable interventions, FIRST E&P supports long-term socio-economic outcomes in host communities:

- **Education:** Scholarships, teacher development, digital learning tools, and improved school infrastructure.
- **Healthcare:** Medical outreaches, capacity building for health workers, and a landmark partnership with Healthy Hearts Foundation to support free open-heart surgeries and cardiovascular care.
- **Enterprise & Livelihoods:** Vocational training, skills acquisition, and SME support.
- **Partnership-driven Impact:** The Impact FIRST programme, providing grants to NGOs addressing healthcare, education, economic empowerment, and environmental sustainability.

Partnerships & Regional Outlook

FIRST E&P continues to expand its footprint across Sub-Saharan Africa through strategic partnerships and disciplined growth, with an increasing focus on gas development, energy security, and transition-aligned opportunities. Recent regional engagements reflect our intent to support sustainable growth beyond Nigeria while exporting Nigerian operational expertise. Examples include:

- **Strategic Expansion:** Landmark MoU signed with TPDC on July 18, 2025, to assess Tanzania's Mnazi Bay North
- 17.5% (direct and indirect) interest in Renaissance acquisition of SPDC (Shell Petroleum Development Company)
- **Energy Transition:** Gas Supply Agreement with NLNG signed on 22 August 2025, supporting the realization of Nigeria's Decade of Gas vision

CREATIVE TECHNOLOGY COMPANY (CREATECH)

Eviola & Co. is a creative technology company (createch) that builds immersive digital platforms and experiences for learning, working, communicating and living through extended reality (XR).

We are Currently Working in the sectors of:

| Construction & Food Technology | Retail & Ecommerce | Fashion & Lifestyle | Manufacturing & Logistics
| Automotive & Transportation | Agriculture and Food Technology

PHYSICAL STUDIO

The physical studio is specially designed to create a learning environment for the purpose of training with state-of-the-art gear. It can also be used by creatives, corporates and freelancers who intend to rent the space for content creation.

COURSE MARKET PLACE

Is primarily used for Selling Educational materials that can aid in reaching new levels of skills, and competencies required to perform specific activities, and these are most times known as modules. Modules may come in form of E-books, VR training modules etc

VIRTUAL STUDIO

Our virtual training studio is a platform created in the metaverse to enable Immersive training sessions. Allowing users to train with digital representations of hardware and experience 3D representation of software, while enabling collaborative learning.

GNSC International

Programme Leadership. **Project Certainty.** Global Delivery.

GNSC International is a UK-registered project and programme management consultancy providing end-to-end delivery leadership across complex infrastructure, real-estate, aviation, energy, and public-private partnership (PPP) projects.

Appointed as **Project Manager for Nigeria House Davos 2026**, GNSC International plays a central role in transforming vision into execution—ensuring that ambitious international initiatives are delivered with structure, governance, and certainty.

What We Do

GNSC International specialises in turning complex ideas into deliverable programmes. We work at the intersection of strategy, governance, and execution—supporting clients from concept through to delivery and operational readiness. Our core services include:

Programme & Project Management

- End-to-end project leadership across multi-stakeholder environments
- Programme governance, reporting, and executive oversight
- Interface management between public and private sector partners

Planning & Project Controls

- Integrated master programmes and milestone frameworks
- Critical path analysis, schedule assurance, and recovery planning
- Progress tracking, risk management, and performance reporting

PPP & Investment Programme Support

- Structuring and managing investment-led delivery programmes
- Coordination of ministries, investors, sponsors, and advisors
- Delivery assurance aligned to international best practice

International Delivery & Market Entry Support

- UK-Africa and global project coordination
- Cross-border teams, governance structures, and execution models
- Advisory support for international investors entering emerging markets

Our Mission

To enable governments, investors, and organisations to deliver complex projects with confidence, by providing structured leadership, robust governance, and execution excellence

Why Clients Choose GNSC International

- Proven leadership on complex, high-profile programmes
- Strong understanding of both developed and emerging markets
- Ability to operate across public sector, private sector, and PPP environments
- Practical, delivery-focused approach—not theory
- Trusted by sponsors, investors, and delivery partners

We don't just advise—we deliver.

Our Reach

- United Kingdom – Programme leadership, planning, and assurance
- Nigeria – PPP, infrastructure, investment-led programmes
- International – Cross-border projects and global initiatives

Let's Build What's Next

GNSC International partners with governments, DFIs, developers, sponsors, and private investors seeking a trusted delivery partner for ambitious projects.

Programme Leadership | Project Management | Planning & Controls | PPP Delivery

INVESTMENT OPPORTUNITIES

BY SECTOR

TECHNOLOGY & DIGITAL INFRASTRUCTURE

Nigeria is Africa's fintech capital and a fast-growing AI and logistics hub.

- Millions of underbanked consumers
- High mobile penetration
- Exportable software talent
- Proven scale models

Opportunity: Payments, lending, infrastructure software, AI-enabled services.

CREATIVE ECONOMY & CULTURAL IP

Nigeria's creative sector is no longer informal – it is global.

- Nollywood: 2nd largest film industry by volume
- Afrobeats: dominant global sound
- Fashion & design exporting internationally

Opportunity: IP licensing, distribution, co-production, global partnerships.

ENERGY & CLIMATE SOLUTIONS

Over 85 million Nigerians lack reliable electricity.

- This is a crisis – and a market.

Opportunity: Solar, mini-grids, clean cooking, climate finance, carbon markets.

AGRICULTURE & AGRO-PROCESSING

Nigeria employs over 35% of its workforce in agriculture, yet exports mostly raw goods.

Opportunity: Processing, storage, logistics, value-added exports.

CONSUMER GOODS & MANUFACTURING

Import substitution and regional trade access create long-term demand.

Opportunity: FMCG, beauty, textiles, manufacturing infrastructure.

Nigeria's CREATIVE & CULTURAL POWER

FILM – The Voice of a Continent

Nigeria's film industry is the world's second-largest film industry—unapologetically Nigerian, globally resonant. Nigeria's film industry, popularly known as Nollywood, is widely recognized as the "voice of a continent" due to its role in shaping African narratives and its massive global cultural influence. As of 2026, the industry continues to evolve through major international partnerships and a shift toward high-production storytelling.

MUSIC – The Sound of a Generation

Afrobeats, Afropop, and Alte lead a cultural wave reshaping global music.

Nigeria's music scene in 2026 is defined by a powerful blend of global dominance and deep-rooted cultural resurgence. Often described as the "soundtrack of a generation," Nigerian music—particularly Afrobeats—has evolved into a movement that shapes fashion, language, and social identity for youth globally.

Design by Lisa Folawiyo

FASHION – Modernity Meets Craft

In 2026, Nigerian fashion has solidified its position as a global powerhouse by masterfully blending ancestral craftsmanship with cutting-edge modernity. This evolution is defined by a "renaissance" where traditional textiles like Aso-Oke, Adire, and Akwete are no longer reserved for ceremonial use but are being reinvented through innovative tailoring and tech-driven design.

**From Akwete, aso-oke to runway minimalism,
Nigerian fashion tells stories of identity & reinvention.**

TECH – Innovation in Motion

In 2026, Nigeria continues to solidify its position as a leading global innovation hub, driven by a youthful entrepreneurial spirit and strategic government-led initiatives. The ecosystem is characterized by rapid advancements in AI, fintech, and digital infrastructure.

- **Key Innovation Drivers in 2026**
- **Economic & Infrastructure Landscape**
- **Leading Sectors of Innovation**

ART - Beyond Canvas

In 2026, Nigerian art continues to evolve "beyond the canvas," shifting from traditional static frames to dynamic forms of social activism, monumental records, and digital frontiers.

Breaking World Records

The Largest Canvas

In April 2025, 15-year-old autistic artist Kanyeyachukwu Tagbo-Okeke achieved a Guinness World Record for the world's largest painting by an individual. The Artwork: Titled "Impossibility is a Myth," it spans over 12,381 square meters—more than twice the size of a football field.

The Impact: This project serves a dual purpose beyond aesthetics, raising awareness and funds for the Zeebah Foundation's Autism Resource Centre in Abuja.

Digital and New Media Frontiers

Nigerian artists are increasingly leveraging technology to redefine creativity on non-static canvases.

Digital Mastery: Artists are utilizing NFTs and blockchain technology to bridge the gap between tradition and innovation, bypassing traditional gallery gatekeepers. Virtual Communities: Platforms like Art.Ng in Lagos and the Beyond The Canvas online forum provide mentorship and experimental spaces for early-career artists to engage with research and critical thinking.

Public & Sustainable Art

The Nigerian landscape itself is becoming the canvas.

Lagos Street Art Festival: Street murals, such as those on Ozumba Mbadiwe Road, have transformed public spaces into open-air galleries, reflecting the bold energy of the city. Art from Waste: Artists like Echezona Ogudu use discarded textiles and fabric remnants to create layered portraits, emphasizing resourcefulness and sustainability.

Functional Art: Public projects extend to mobile canvases, including murals on Molue buses and Lagos water ferries to support social causes like Down Syndrome awareness.

Arinze Stanley

Portrait of Resilience 5, 2022
Charcoal and Graphite on paper
65 × 55 1/10 in | 165 × 140 cm

Arinze Stanley is a self-taught Nigerian artist known for hyperrealistic pencil and charcoal portraits of Black subjects that capture the complexities of the contemporary Black experience. Drawing since age six, he developed his photorealistic style through his "three Ps": patience, practice, and persistence. Working from live models, references, and imagination, Stanley often spends up to two months on a single portrait, exploring emotions that confront police brutality, systemic racism, and social justice.

TOOF

Policy builds nations. Capital scales industries. Culture influences how people see the world.

At TOOF, we believe some of the most important work is not solely done in boardrooms or government offices but through the stories we tell, the art we create and the cultural ecosystems we nurture.

TOOF exists to celebrate and accelerate the creators redefining Nigeria's global narrative through funding, access and mentorship.

Culture is Infrastructure. And the future is being shaped now

Bridging the gap between potential and purpose

NIGERIA THROUGH THE AGES

900 – 1600

Nok, Ife, Benin– Civilizations of art, metallurgy & spirituality.

The Nok, Ife, and Benin civilizations were foundational West African cultures renowned for their sophisticated artistry (terracotta, bronze), advanced metallurgy (early iron smelting), and rich spiritual life, with Nok pioneering early African iron tech and art, Ife serving as Yoruba spiritual origin, and Benin excelling in bronze casting, all showcasing deep creativity and complex societies long before colonial contact, leaving legacies of influential art and cultural innovation.

Nok Civilization (c. 1000 BCE – 300 CE)

1700s

Northern emirates flourish in trade, Scholarship & Architecture.

The historical Northern Emirates of Nigeria, particularly within the Sokoto Caliphate, were indeed centers of thriving trade (textiles, leather, salt), advanced Islamic scholarship (Quranic schools, madrasas), and distinctive architecture (ancient walls, palaces, mud-brick structures), creating a rich cultural and economic legacy in West Africa. Key emirates like Kano and Katsina were major hubs, leveraging trans-Saharan routes for commerce and attracting scholars, fostering a sophisticated society known for its crafts, learning, and organized governance.

Late 1800s

Colonial disruption & resistance.

British colonialism in Nigeria brought significant disruptions to indigenous political, economic, and social systems. These disruptions were met with diverse forms of widespread resistance, ranging from armed conflict and civil disobedience to diplomatic and political movements.

Economic Exploitation: The primary goal of the colonial economy was resource extraction to benefit British industries. This involved:

- Imposing taxes (like the hated head tax) that forced Nigerians into the colonial labor market to earn British currency.
- Forcing local populations to work on mines and plantations.
- Destroying local craft and blacksmith industries and trade networks to create a dependent economy reliant on British goods.

1960

Independence.

Nigeria achieved independence from the United Kingdom on October 1, 1960. This milestone marked the end of British colonial rule, which had officially begun with the amalgamation of the Northern and Southern Protectorates in 1914.

1990s

Nollywood rises; a new cultural identity emerges.

Nollywood has transformed from a grassroots video-film movement into a global cinematic powerhouse, now recognized as the second-largest film industry by volume and a critical pillar of a new, assertive African cultural identity. By 2026, the industry has solidified its role as an agent of cultural diplomacy and economic growth.

2010 – 2020

Afrobeats takes the world.

From 2010 to 2020, Nigerian Afrobeats evolved from a regional sound into a global cultural phenomenon, characterized by record-breaking collaborations, major award recognition, and the rise of a "Big Three" who dominated the decade.

TODAY

NIGERIA BECOMES AFRICA'S CREATIVE AND INNOVATION CAPITAL.

In 2026, Nigeria has solidified its status as Africa's primary creative and innovation capital. This transformation is driven by high-profile government initiatives, significant infrastructure investments, and a booming private sector.

FACES OF NIGERIA

01

OLAEDO NATURALS

Olaedo Naturals is a premium Nigerian skincare and haircare brand that crafts gentle, science-backed solutions utilizing ethically sourced African botanicals. Founded in 2018 by Chidera Ogbu, the brand was born out of a personal journey to find effective remedies for sensitive skin conditions like psoriasis.

02

FLUTTERWAVE

Flutterwave is a leading African financial technology company that provides a unified payment infrastructure for global merchants and payment service providers. Founded in 2016 by Nigerian entrepreneurs Olugbenga Agboola and Iyinoluwa Aboyeji, the platform solves Africa's fragmented payment landscape by allowing businesses to accept and process cross-border payments through a single API.

03

BANKE KUKU

Banke Kuku is a prominent Nigerian fashion and textile designer widely celebrated as the "Queen of Color" for her vibrant, culture-blending luxury lounge and occasional wear. Fusing West African heritage with Western-eclectic influences, her eponymous brand has become one of Africa's most recognizable luxury labels.

04

KEMI ADETIBA VISUALS

Kemi Adetiba Visuals (KAV) is a full-service multimedia production company focused on telling authentic African stories through films, music videos, commercials, and documentaries. Founded in June 2015 by acclaimed filmmaker Kemi Adetiba, the Lagos and New York-based studio has developed some of Nollywood's most culturally impactful and commercially successful cinema franchises.

LANDMARKS OF

NIGERIA

//

Nigeria is home to many significant natural and man-made landmarks that showcase its rich history, culture, and diverse geography. Prominent examples include the striking Zuma Rock, the historic Osun-Osogbo Sacred Grove, and the modern Lekki-Ikoyi Link Bridge.

//

LANDMARKS OF NIGERIA – POSTCARDS FROM HOME

1 Zuma Rock - The guardian of Abuja.

Zuma Rock, famously known as the "Guardian of Abuja" and the "Gateway to Abuja," is a massive monolithic inselberg that stands as one of Nigeria's most iconic natural landmarks. While often associated with the capital city due to its proximity along the Abuja-Kaduna expressway, it is geographically located in Madalla, Niger State.

2 Olumo Rock - A fortress of the Egba people.

Olumo Rock is a massive granite outcrop in Abeokuta, Ogun State, Nigeria, that served as a natural fortress for the Egba people during the 19th-century inter-tribal wars. Rising 137 meters above sea level, it provided strategic vantage points to monitor enemy movements and caves that offered refuge from invaders.

3 Idanre Hills - Spiralling steps into centuries of history.

Located in Ondo State, Nigeria, Idanre Hills (also known as Oke Idanre) is a cluster of majestic granite peaks rising approximately 3,000 feet above sea level. These hills served as a natural fortress and the original home for the Idanre people for over 800 years before they moved to the base in 1923.

4 Osun Sacred Grove - A UNESCO sanctuary of spirituality and nature.

The Osun-Osogbo Sacred Grove is a UNESCO World Heritage site in Osogbo, Nigeria, recognized for its profound spiritual, cultural, and natural significance as one of the last remaining sacred forests of the Yoruba people. It is dedicated to the Yoruba goddess of fertility, Osun.

5 Ogbunike Caves - Ancestral pathways carved in stone.

Located in a forested valley in Anambra State, Nigeria, the Ogbunike Caves are a labyrinthine network of limestone chambers and tunnels that serve as a profound intersection of geological wonder and spiritual heritage.

6 Benin Moat - One of the world's largest earthworks.

The Benin Moat, known locally as the Iya or the Walls of Benin, is a series of massive earthworks in modern-day Nigeria that were once officially recognized as the world's largest earthworks carried out prior to the mechanical era.

7 National Theatre - Architecture meets artistic legacy.

The National Theatre in Iganmu, Lagos, is a major cultural landmark whose architecture reflects national pride and ambition, while its artistic legacy is cemented by its role as Nigeria's primary center for the performing arts. The building was officially renamed the Wole Soyinka Centre for Culture and Creative Arts in October 2025 in honor of the Nobel laureate.

8 Kajuru Castle - A modern architectural curiosity.

Kajuru Castle is a modern, privately-owned luxury villa in Kaduna State, Nigeria, that is indeed considered an architectural curiosity due to its authentic medieval-inspired Romanesque style in an unexpected African setting.

BANK OF AGRICULTURE

The best way to truly
appreciate anything
is to imagine yourself
without it.

BOA will continuously work towards
a future where no Nigerian will
go without food.

#worldfoodday

It's time to seize the moment.

Now is the time to elevate
Africa's instrumental role
as an engine of growth in a
changing world

TASTE OF NIGERIA CULINARY STORIES

//

In Nigeria, food is far more than sustenance; it is a repository of history, a symbol of communal unity, and a medium for storytelling that spans generations.

//

Jollof Rice - A celebration on a plate.

Jollof rice is more than just a meal; it is a vibrant cultural icon and a symbol of unity, pride, and shared history across West Africa. Often referred to as "the king of rice," it is the centerpiece of celebrations, leading to the popular Nigerian saying: "A party without Jollof is just a meeting".

Banga - Deep flavours of the Niger Delta.

Banga soup, a culinary hallmark of Nigeria's Niger Delta, is a rich and aromatic delicacy made from the extract of palm nut fruits. Deeply rooted in the cultures of the Urhobo, Isoko, and Itsekiri peoples, it is renowned for its complex, smoky, and earthy flavor profile.

Ofada - Earthy, local, unmistakably Nigerian.

Ofada is a celebrated Nigerian delicacy consisting of indigenous, unpolished short-grain rice paired with a spicy, oil-based stew. It is deeply rooted in the culture of South-West Nigeria, particularly within the Yoruba community.

NIGERIA NATIVE DRINKS

These are five traditional Nigerian beverages, each with deep cultural significance and unique preparation methods.

PALM WINE (EMU, NGWO, OR NKWU): A sweet, milky alcoholic beverage. It is tapped from the sap of various species of palm trees, such as oil, raffia, or date palms. It is naturally fermented by wild yeasts and is a staple at traditional weddings and festivals.

ZOBO: A refreshing, non-alcoholic red drink made from dried Roselle plant (hibiscus) petals. It is typically flavored with ginger, cloves, and pineapple, and served chilled. It is prized for its high Vitamin C content and antioxidant properties.

Abacha - The taste of tradition.

Abacha, popularly known as African Salad, is a cherished traditional delicacy originating from the Igbo people of Southeastern Nigeria. It is made from shredded and sun-dried cassava (tapioca) flakes, which are combined with local spices and ingredients to create a unique blend of flavors and textures.

Suya - Flame, spice, and community.

Suya is a popular Nigerian street food consisting of skewered, spiced, and grilled meat, celebrated for its unique blend of flame, spice, and community. It's a cherished Hausa tradition that has become a national delicacy, symbolizing Nigerian hospitality and social gatherings.

Onunu & fresh fish- south south

Onunu and fresh fish stew/peppersoup is a popular, traditional delicacy from the South-South region of Nigeria, especially among the Ijaw and Kalabari people of Rivers and Bayelsa States. Onunu is a fufu-like meal made from pounded yam and very ripe plantain, typically served with a light, spicy fish stew or peppersoup.

KUNU: A fermented cereal-based drink common in Northern Nigeria. The most popular variety, Kunu Zaki, is made from millet, sorghum, or maize. It has a creamy texture, spicy kick (from ginger or sweet potatoes), and is often enjoyed as a probiotic energy booster.

FURA DA NONO: A thick, nutritious beverage from Northern Nigeria. "Fura" refers to cooked, spiced millet balls, which are mashed and mixed into "Nono," which is fresh or fermented cow's milk. It serves as both a refreshing drink and a filling meal replacement.

OGOGORO: Often called "Nigerian Gin," this is a potent, clear spirit distilled from fermented palm wine. It contains high alcohol content and is used extensively in traditional ceremonies, religious libations, and as a local social drink.

Nepal Energies is a proudly Pan - African energy company with Nigerian roots, driving industrialization and economic transformation across the continent.

FUTURE NIGERIA - POSSIBILITY

Nigeria is a country of youth—vibrant, ambitious, globally connected. With the continent's largest creative economy, growing tech hubs, and a talented diaspora driving global industries, Nigeria stands ready for new partnerships and bold collaborations.

The future is young, digital, inventive and Nigerian.

Africa's most
preferred **energy**
solutions provider.

► ABOUT US

Tetracore is a leading energy solutions provider, delivering clean, cost-effective, and sustainable power across Nigeria and beyond. We specialize in gas supply, off-grid power, and energy infrastructure—driven by innovation and execution excellence.

► WHAT WE DO

- Gas distribution and supply- a supply portfolio exceeding 120mmscfd and growing
- Virtual Pipeline Distribution- 6.2mmscf capacity CNG facility, 10mmscfd LNG facility
- Auto gas refueling units- capacity of 50,00scmd
- On/ off grid power solutions.- over 100mw gas to power and renewable projects
- Energy Consulting & Strategy Portfolio
- Licensed shipper on the West Africa Gas Pipeline and the Escravos Lagos Pipeline System

OUR SUBSIDIARIES

► WHY TETRACORE?

- Tailored energy solutions
- Fast, efficient project delivery
- Trusted technical expertise
- Scalable infrastructure
- Competitive pricing

FOREIGN AFFAIRS

Nigeria House Davos is a private-sector-led platform convened to support Nigeria's economic-diplomacy and investment agenda, in alignment with the Renewed Hope Agenda. It has been presented to the Federal Ministry of Industry, Trade and Investment for the Government's endorsement, and is delivered by a globally experienced private-sector consortium.

DELIVERY & EXECUTION

Nigeria House Davos is delivered by a globally experienced consortium ensuring Davos-standard execution:

- Eviola & Co Integrated Services Ltd – Lead Coordinating Organization
- Lex-Consulting Advisory Services Ltd – Policy & Advisory Partner
- UFAM Services Nigeria Ltd – Founding & Technical Partner
- Intire Services AG, Switzerland – Infrastructure & Logistics Partner

Together, the consortium reflects Nigeria's ambition, professionalism, and commitment to global excellence.

Nigeria House Davos was successfully convened on the margins of the World Economic Forum 56th Annual Meeting in January 2026 in Davos, Switzerland, driving high-level engagement across government, investors, and private sector stakeholders.
